

Quarter of the School Year: 3

School: Gifford Middle

In October 2023, the School District of Indian River County initiated the implementation of the 2023-2024 African American Achievement Plan. To review and ensure compliance with progress of action steps associated with the African American Achievement Plan, the District provides quarterly updates related to action steps accomplished and quarterly outcomes.

The attached documentation provides school level evidence of progress towards accomplishing action steps incorporated into the 2023-2024 African American Achievement Plan. Documentation requirements have been designed to honor the full intent of the developed African American Achievement Plan while optimizing the efficiency and effectiveness of outlined actionable steps.

To support ongoing accountability of action step implementation, documentation, and progress the following assurances have been verified by the principal/supervisor of each school/location:

- Action steps included within the 2023-2024 African American Achievement Plan have been implemented with consistency and purpose to eliminate the achievement gap.
- Progress related to action steps has been monitored at designated intervals (e.g., monthly, quarterly) outlined in the African American Achievement Plan.
- Data reviews have been conducted to identify areas of strength and concern and disaggregated data will be provided upon request.
- Progress related to the elimination of the achievement gap has been monitored in an ongoing way and needed modifications have been made as identified.

These assurances have been reviewed and verified on March 22, 2024: _____CB_____ (initials)

Quarterly Reflection

(Please summarize any reflections based upon action step implementation for the quarter. What are areas of progress or opportunities for growth? What are next steps based upon work accomplished?)

We continue to make steps towards a much more proportional data set when related to representation of African American students. The school-based team is remaining vigilant in ensuring that systems and measures are in place to continue to move the mark in the right direction. With regards to enrollment into extracurricular we are excited to see a more equitable representation of African American students this past quarter.

When we review our discipline data there is a high rate of African American students that are getting Aspire and/or ALTOSS. We are aware and are working to ensure that there is a higher sense of vigilance when considering consequences. With regards to the percentage breakdown when adding in the Hispanic and Other to White sub group the percentage of these subgroups compared to Black students is 36% compared to the 63% of Black students getting Aspire and/or ALTOSS.
