

RTI / MTSS – Beginning of Year 2019-2020

Agenda – Guidelines for beginning of year data review – intervention planning and development

Happy Friday! I can't believe we are already three weeks into the school year!

At this point, everyone should have completed the I-Ready Reading Diagnostic. We will plan to meet during your planning on September 9th for our first data chat. The purpose of the meeting will be to analyze the I-Ready Reading diagnostic, form groups for the RTI block of time, Tier 3, and your small group instruction as well.

In one drive, you will find the 2019 spreadsheet that will need to be complete prior to the September 9th meeting.

In the attached document, you will find directions on how to find the information on I-Ready and complete the spreadsheet.

Please also be thinking of what you envision your students learning and curriculum/resources you'd like to see used at the T1 supplemental and Enrichment levels.

Thank You,

*Lisa Ross
