

Grade Level/Department Data Review on Early Warning Indicators

Week of May 12 and May 18

TEAMS

1.17 – Data Chats on Early Warning Indicators

Narrative

Weekly data chats occur among each grade level since March 30, 2020. The data chats encompass attendance on iReady, performance, communication, and participation/activity on Canvas where teachers and administrators focus on students who have early warning indicators in relation to mobility, retention, course failures, level 1 on FSA, and attendance concerns.

Data

iReady Data

- ✓ Reading – comparison of results by subgroup (Fall, Winter, Spring)
- ✓ Math – comparison of results by subgroup (Fall, Winter, Spring)
- ✓ Discuss students who have not tested, barriers, contacts home (contact log)
