

Action Step 1.27

Evidence of Completion

Indian River Charter High School

Administration and guidance worked together to create plans for individual students who were not on track to graduate. Guidance counselors and administration have reached out to families to ensure the success of these plans. The families of 15 seniors who were at risk of not graduating were contacted during the month of April via phone. None of these students are African American. Of the 15 seniors who were at risk, 14 went on to graduate from Indian River Charter High School. One student chose to withdraw to pursue enrollment in the Treasure Coast Technical College and a GED.
