

VBHS Review of In School Suspension

VBHS met on 02/24/2020 to discuss discipline practices and review the school's use of in school suspension. Ultimately, the team decided more data was needed and agreed to pull data on student demographics and use of in school suspension as a consequence and reconvene in March. Also discussed was acceptable work and procedures during ISS, including time for behavior reflection, and the appropriate instructional personnel in the ISS room.
