School/Department: Rosewood Elementary

**Action Step
(number and
description):** 1.11 Extracurricular Activities

**Evidence of Progress
Monitoring
(Please include
narrative/description
of the action taken.
Where applicable,
please include all
measurable data.)**

You will see our updated extracurricular programs that are running with a break down of participation. You will see an expectation that all applications for extracurricular clubs or activities be open to all students. You will see the expectation that each club/activity will be monitored for equal access and representation.

**Results of Action
Taken:**

Teachers/staff will be aware of the students participating in extra curricular activities, as well as be mindful that we are making these opportunities available to all students. We will be more aware of the subgroup participation data and begin to see if there are any trends for any discrepancies we may see.

Reflection:

By reviewing this data we have become more aware of the subgroup participation in our extra-curricular activities. We will continue to monitor this throughout the year and look for any trends.

Indicator 1.11 – Extracurricular Activities Rosewood Magnet School

Action Step:

Develop a process to identify the current needs and supports for equitable participation in extracurricular activities (e.g., cheerleading, lacrosse, soccer and orchestra).

Evidence of Progress Monitoring:

- **Principals** - Methodology and documentation of extracurricular activities at each school by race
- **Principals** - Results of student committee meetings to share opportunities to diversify extracurricular activities
