**Evidence of Progress  
Monitoring  
(Please include  
narrative/description  
of the action taken.  
Where applicable,  
please include all  
measurable data.)**

Storm Grove Middle School has reviewed current sports and performing arts rosters for racial distribution. We have identified equity needs and have set up a system to provide needs to increase participation. Based on our current data we see an area for growth in Black or African American students enrolling in orchestra and Hispanic students enrolling in Band. Soccer tryouts were held in September, there were 21 that made the team and one African American student that made the team. Volleyball tryouts were held in September, there were 14 that made the team and one student that is identified as other made the team.

**Results of Action  
Taken:**

Band and orchestra teachers will actively recruit minority students to join their programs. The programs will continue to be highlighted in our quarterly Newsletters and flyers that will be sent home as well. We have documentation of extracurricular activities by race as well as documentation for performing arts rosters.

**Reflection:**

To continue to focus on increasing equitable participation in extracurricular activities. In reflection SGMS has 7% Black or African American students on campus with 11.4% in band and 3.5% in orchestra. While students are overrepresented in band they are underrepresented in orchestra. A thought is that this may be a financial concern due to the cost of instruments. This will be addressed through our information about financial assistance for students.
