**Action Step #
and Description:**
**(If more than one action
step is evidenced here,
please include all action
step #'s and a brief
description of each.)**

1.18 Ensure African American students who have not met course requirements for graduation are participating in "in- school" credit recovery classes to recover failed core courses and raise grade point averages to meet graduation requirements.

**Explanation of
Evidence:**

Guidance Counselors, the Testing Coordinator, and the Assistant Director of Student Services will pull a report for students who are not on track to graduate each school year and discuss. Guidance Counselors will go over a graduation checklist with all identified students to make sure they are on track. Students have the possibility to participate in credit recovery during the school year and over the Summer.

**Results of Action
Taken:**

Guidance Counselors, the Testing Coordinator, and the Assistant Director of Student Services pulled reports for students who are not on track to graduate (A.A. Students Less than 2.0 GPA, A.A. Students Credit Comparison). This team compares credits attempted with credits earned, considers the student's grade level, and makes a plan of action, including offering course recovery options. African American senior students met with their guidance counselors and completed a graduation checklist, which has been attached (Graduation Checklist). Students are offered opportunity to recover courses throughout the school year and over the Summer.

Reflection:

IRCHS will continue the practice of counselors reviewing the graduation checklist with students on an individual basis. The school could expand this practice to include Homebase teachers if the graduation rate backslides.
