Date: 10/9/2020

School/Department: Sebastian River High

Action Step (number and description): 1.20 Develop a training for school counselors to facilitate conversations with students who are not on track to graduate, review options for graduation, meet graduation requirements and develop individual plans for students. Principals will meet with school counselors to review and monitor implementation of the plan.

Evidence of Progress Monitoring (Please include narrative/description of the action taken. Where applicable, please include all measurable data.) Assistant Principal meets weekly with guidance staff to discuss struggling AA students. Systems of support are discussed as well as any other options that would prove beneficial to the student. Power BI is used to monitor data as well as individual student conferences with guidance counselors.

Results of Action Taken: Students have an adult on campus to help monitor academic progress as well as someone to discuss options when not academically successful.

Reflection: This process remains fluid as students start to transition back to brick and mortar classes.

7. M. Cama: Parent Conferences: Since we don't consistently have conferences scheduled during parent conference

nights, what if we offered some sort of Teams **meeting** for our option 2 seniors (and any others who want to attend)

to cover some basic college prep and financial aid information? This would be in lieu of fall one-to-ones with them

since they aren't on campus, but give them the opportunity to receive college prep info at a more appropriate time.

We could share our screen to review a quick PowerPoint, do a Q&A, etc.

8. Centralizing documentation: using Demographic/Student Documentation/Staff Contact Log: counselors,

grad coach, success coach. This will create one-stop superlist of info that can be sorted and combined
