

## African American Achievement Plan Evidence of Progress Monitoring

### School District of Indian River County #SDIRCStrongerTogether

**Date:** 11/18/2020

**School/Department:** Pelican Island Elementary

**Action Step  
(number and  
description):**

1.25 Universal Screening for Gifted Identification  
School counselors will implement universal screening for gifted identification for all students prior to 4th grade across all District elementary schools utilizing procedures outlined in the state-approved District plan for increasing underrepresented populations in gifted.

**Evidence of  
Progress  
Monitoring  
(Please include  
narrative/descripti  
on of the action  
taken. Where  
applicable, please  
include all  
measurable data.)**

Universal Screening Implementation Results  
During the 19-20 school year, 48 students were screened for gifted. Of those students, 20 are still moving forward with gifted evaluations with our School Psychologist (testing was postponed in 19-20 due to COVID). There are 6 students currently in the gifted program (5/6 White), up from only 4 (all White) in the October submission. The School Counselor will continue this work during the 20-21 school year, using initial iReady data to prioritize students. Progress will be shared with administration.

**Results of Action  
Taken:**

A timeline will be created to help ensure we successfully implement the procedures in the district plan and increase underrepresented populations in our gifted program. There are 6 students currently in the gifted program (5/6 White), up from only 4 (all White) in the October submission. 16 additional students have returned checklists and the counselor continues to move forward with screening.

**Reflection:**

It is our hope that we are equitable in our process to identify students into the gifted programs for all underrepresented populations.
