Explanation of Evidence: Currently, we have eight students taking advanced coursework at the Alternative Center for Education. The students are enrolled in Leadership Honors and Earth and Space Science Honors via Edgenuity. Out of the eight students enrolled, 50% are African American.

Results of Action Taken: Overall, the students are showing some success with the courses. The African American students are making minimal progress due to attendance issues.

Reflection: The academic advisor continues to look for opportunities to enroll African American students in advanced coursework.
