Date: 10/20/2020

School/Department: Gifford Middle

**Action Step #
and Description:**
(If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)

#1.38 School Level Data Chat Regression Review

Explanation of Evidence:

Using the data sources (Unit Assessments and iReady Diagnostics to cross reference with provided predictive scores we were able to identify between 30-40 students for Reading and Math that fell into the category of regression.

Results of Action Taken:

Students will be offered extra support via Extended Learning Opportunities, also parents will be notified of the implications of regression on State Assessments and how this could possibly impact placement in high level classes at the high school level. Students will set goals and work toward regaining or bypassing their original FSA scores.

Reflection:

The remote learning option has proved to be difficult for students; therefore, more opportunities for remediation and support will have to be extended to student to get their GPA's back up and increase their overall grade for classes. Many students are returning to school from the remote learning platforms and will have a better educational setting in a classroom.

iready = 1 green 0 yellow -1 red *** previous sdirc = 1 green -1 red *** current sdirc = 1 green 0 yellow -1 red
