School/Department: Sebastian River Middle

Action Step # and Description: 1.33 Summer Programs

(If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)

Explanation of Evidence: This is a summary of the number of black students who participated in two opportunities offered this summer. The first page details the SRMS Summer Enrichment Program – the Principal’s Challenge. The second page lists the number of black students who participated in the school district’s Illuminate 2020 Enrichment program, which was a new offering, in which students were able to work on activities in all core areas and submit for weekly prizes. A letter explains the first opportunity which is provided every year by our teachers for students to get a jump-start on the material they will be learning about in class. The Principal’s Challenge for ELA provides background information in the subjects students will be studying in the upcoming school year in Language Arts and Social Studies. In Math, the activities are designed to maintain students’ skills. Additionally, students are expected to complete iReady Reading and Math lessons each week. In order to promote these activities, we posted notices on our social media accounts, and also posted the letter about Principal’s Challenge on our website, and in FOCUS on the parent portal.

Results of Action Taken: As a result of our efforts, 28 students participated in our Principal’s Challenge, 5 of those students, or 22% of the total who participated, were black. For the Illuminate Summer Enrichment program, a larger percentage of our overall black population participated.

Reflection: We will examine the types of assignments offered to our students in the Principal’s Challenge and consider whether that may have an impact on student participation. If necessary, we will modify the Principal’s Challenge so it is more engaging for students.

Principal's Challenge – SRMS Summer Enrichment Program

- 23 students participated in math
28 students participated in ELA
19 of those participated in both
 - of 114 currently enrolled Black non-Hispanic students at SRMS
(in option 1, 2 and 3)
 - 5 participated in math
 - 4 participated in ELA
 - 4 participated in both

	Math	ELA	both
Total number of participants	23	28	19
Percent of all enrolled (n=860)	3%	3%	2%
Black students participating	5	4	4
Percent of Black enrolled (n=114)	4%	4%	4%
Percent of all who participated (n=23)	17%	22%	17%

Illuminate 2020 – SDIRC’s Summer Enrichment Program through Canvas

- 164 SRMS students logged in to Canvas
 - of 114 currently enrolled Black non-Hispanic students at SRMS (in option 1, 2 and 3)
 - 10 logged in/participated according to the rosters

Total number of students enrolled	Total number of participants	Percentage of participants	Total number of black enrolled	Total number of black participants	Percent of black enrolled	Percent of all participants
860	165	19%	114	10	9%	6%

May 2020

Dear Parents/Guardians and Students:

The 2020 Sebastian River Middle School's Principal's Reading and Math Challenges are now available on the SRMS Website. Our goal was to create Math and Reading activities that will provide your child with the necessary background knowledge in the subjects they will be studying in the next school year.

All SRMS students are ***strongly encouraged*** to complete the Principal's Reading and Math Challenge. ***The Reading and Math Challenges will be due by Friday, August 21st, 2020.*** Students completing the challenge will be rewarded for their efforts (past rewards have included bowling, a movie at AMC, pool party, etc.). To earn the Principal's Challenge Reward, students must complete the Reading and Math Challenges, and the i-Ready Reading and Math requirements.

READING CHALLENGE: The list of books provided is a ***suggested*** list. **If you can find a book at the library or bookstore that falls under the same type of category and is at grade level, that would be acceptable.** We understand that it may be difficult to find books in each child's reading level, but we believe that reading books from this list and completing the assignments will be beneficial for your child before they enter the 2020-21 school year. In addition to completing the Summer Reading Challenge activities, **students must complete at least one i-Ready Reading Lesson per week from June 8th to August 7th.**

MATH CHALLENGE: The activities that are assigned to your child are intended to keep their math skills sharp during summer break. Since our current 6th and 7th grade students will be scheduled to various math classes, your child's math teacher provided your child with the correct math packet at the end of the year. In addition to completing the Math Challenge packet, **students must complete at least one i-Ready Math Lesson per week from June 8th to August 7th.**

Although I enjoy relaxing with my family during the summer ☺, I check my email often. Please feel free to contact me if you have any questions or concerns. My email is bradley.wright@indianriverschools.org. We truly appreciate your help and support with the Principal's Challenge! I hope you have a great summer vacation and enjoy your time off!

Sincerely,
Brad Wright
SRMS IB Coordinator & 7th Grade Civics Teacher

Hey Cowboys! Are your kids "bored in the house and in the house bored?"

Have them login to Canvas and complete this week's Summer Enrichment Activities! (No registration or prior participation necessary!)

There are fantastic opportunities for great prizes for all different types of activities...AND they may LEARN SOMETHING!

And don't forget about our Principal's Challenge -- students who complete BOTH parts will earn a reward of a trip (when safety allows) to fun outing! Click this link to see all the documents:
