

## Evidence of Progress Monitoring

School District of Indian River County  
#SDIRCStrongerTogether

**Date:** 10/21/2020

**School/Department:** Vero Beach Elementary

**Action Step # and Description:**  
(If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)

Action Step 1.36 - Articulation at Schools for Advanced Coursework  
Implement articulation at all school levels to recognize and support students for advanced coursework, especially moving from 5th to 6th and 8th to 9th grades.

**Explanation of Evidence:**

Student data chats are conducted to place students in appropriate enrichment or intervention opportunities. Based on these data chats, we have identified students in grade 3rd-5th that would benefit from advanced course work, and our Project Based Learning framework. From our data chats, we determined that 79 total students in grade 3rd-5th were eligible for enrichment opportunities. Upon further review, 16% are Hispanic, 57% are White, 24% are AA/Black, and Less than 3% are AI and MR.

**Results of Action Taken:**

We will continue to monitor Unit Assessment Data and I-Ready assessments to determine the progression toward maintaining current achievement levels. Each month, administrators meet with classroom teachers to discuss student data. ESE teachers have 2-hour meetings each quarter with administrators to ensure progress is being made.

**Reflection:**

Currently, there has been minimal time in the enrichment groups. Once more data can be collected, we will determine any adjustments that need to be made.
