**(If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)**

**Explanation of Evidence:** The Alternative Center for Education does not have an in-school suspension room, however we are currently using our Self-Reflection Room as a temporary time out for minor disruptive behaviors.

**Results of Action Taken:** Our African-American students numbers for ISS are currently at 0%, however evidence shows that African-American student removals from the classroom to self-reflection room have significantly decreased from the month of October through November.

**Reflection:** Our school has completely embraced the concept of progressive discipline and working with our students to identify their personal issue through social emotional learning curriculum.
