Evidence of Progress Monitoring (Please include narrative/description of the action taken. Where applicable, please include all measurable data.) Leadership team conduct equity walkthroughs in the month of November to determine engagement levels for all students in all grade levels. Team documented data on a school created equity form. On November 17th, the team met to discuss trends; both positive and negative.

Results of Action Taken: From the data, there was not any significant implications as a school wide trend. However, we were able to identify targeted teachers that showed discrepancies in overall data trends of the school. Teachers who were identified with lower percentages will be notified of the observational data recorded and together with administration, we will plan to improve equitable practices. (see attached data)

Reflection: Early training with Tykes and Teens along with Impact Review data sharing has had a positive impact on equitable practices at Vero Beach Elementary. We will continue to monitor these practices and provide feedback to the teachers regarding this area.
