### African American Achievement Plan – Goal 2 Student Discipline October Update

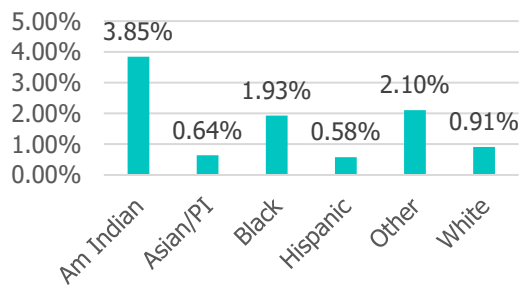

#### Goal 2: Student Discipline

The African American Achievement Plan identifies the reduction of disparities in discipline and alternative disciplinary placement as a major focus area. Specifically, an action plan has been developed to reduce the disparities in discipline referrals, classroom removals (suspensions), and alternative disciplinary placement at the Alternative Center for Education.

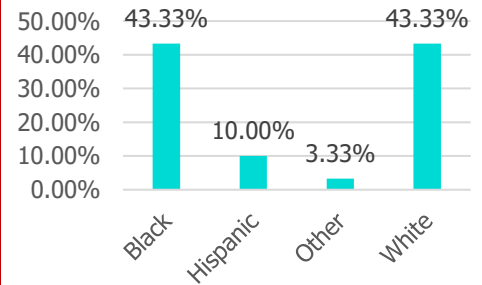

##### Office Discipline Referrals (ODR)

The chart to the right shows the racial/ethnic breakdown of the percentage of students who have received at least one ODR. Currently, Black students are 2.1 times more likely (2.1 risk ratio) to receive an ODR than White students. The charts below show the percentages by Race/Ethnicity for ISS, OSS, and ALTOSS. Finally, on the bottom right, is a chart showing the racial/ethnic breakdown of enrollments at ACE.

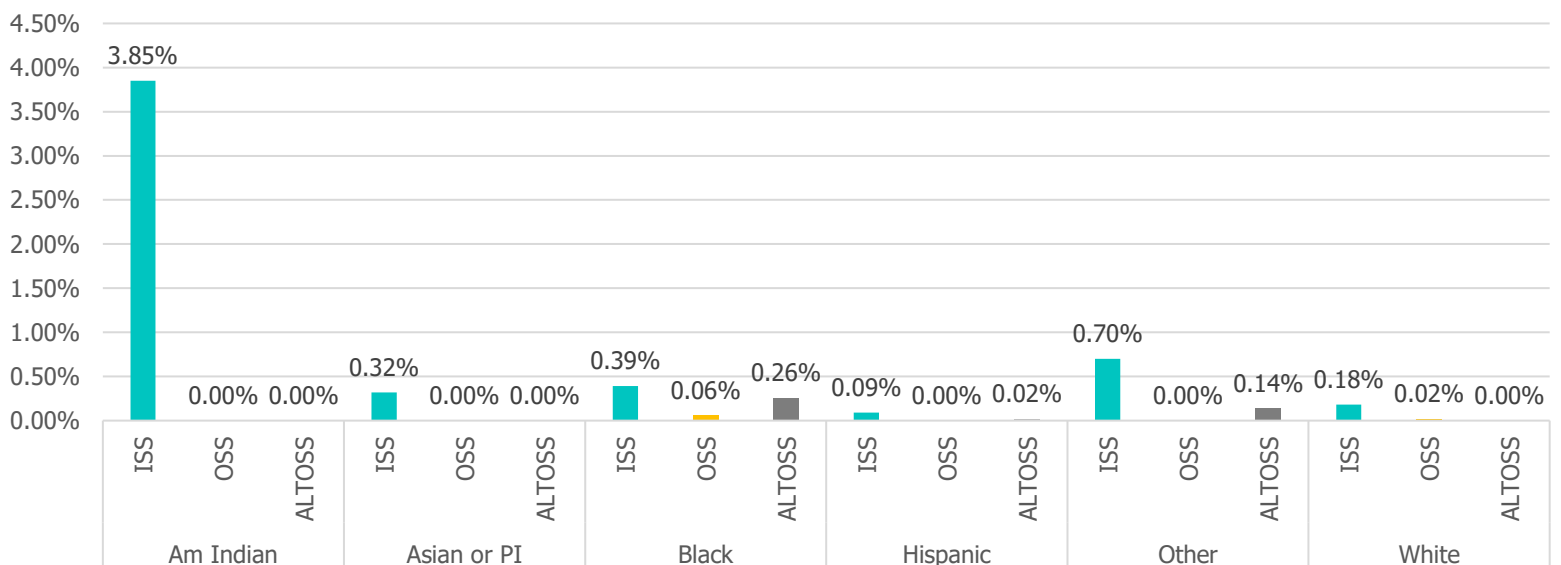

Percent of Students with 1+ ODR

Percent of ACE Enrollment

Percent of Students with 1+ ISS, OSS, ALTOSS

**ISS:** In-School Suspension **OSS:** Out-of-School Suspension **ALTOSS:** Alternative to Out-of-School Suspension

**Risk Ratio:** a risk ratio greater than one means the target group is at an increased risk over other groups to receive an ODR.
