African American Achievement Plan – Goal 1 Academic Achievement January Update

Goal 1: Academic Achievement

The School District of Indian River County administers teacher-created Unit Assessments in state-assessed courses. The purpose of these assessments is to provide teachers with:

- A bank of Florida Standards-based assessments that are aligned and rigorous,
- Quality assessments that allow for consistency across schools,
- The ability to identify students that have mastered the standards in each unit, and
- Progress monitor the data to make instructional changes and re-teach for mastery.

Unit Assessment Weighted Averages

Unit Assessments are teacher-created assessments that are administered approximately twice each nine weeks. The charts displayed highlight the overall weighted average on all Unit Assessments taken during the school year aggregated by Race/Ethnicity.

Unit Assessment: Math, Algebra 1, & Geometry

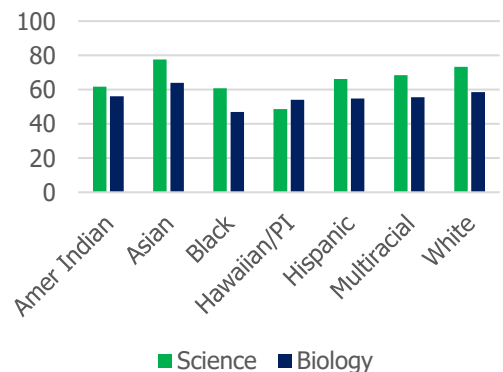

Unit Assessment:
Civics & US History

Unit Assessment: ELA

Unit Assessment:
Science & Biology

Correlations to FSA Assessments: Each year, performance on Unit Assessments is analyzed in comparison to achievement on the statewide assessments in each subject area. While it depends on the grade level and subject area, typically a Unit Assessment Weighted Average score of between 55-65% correlates to a level 3 on the statewide assessment.
