### School District of Indian River County African American Achievement Plan 2021-2022 Assurances of Implementation of Strategies/Action Steps

### **Treasure Coast Elementary School**

### 2021-2022 Quarter 2

In August 2021, the School District of Indian River County initiated the implementation of the 2021-2022 African American Achievement Plan. To review and ensure compliance with the progress of action steps associated with the African American Achievement Plan, the District provides quarterly updates related to action steps accomplished and quarterly outcomes. The attached documentation provides school-level evidence of progress towards accomplishing action steps incorporated into the 2021-2022 African American Achievement Plan. Documentation requirements have been designed to honor the full intent of the developed African American Achievement Plan while optimizing the efficiency and effectiveness of outlined actionable steps. To support ongoing accountability of action step implementation, documentation, and progress the following assurances have been verified by the principal of each school:

- Action steps included within the 2021-2022 African American Achievement Plan have been implemented with consistency and purpose to eliminate the achievement gap.
- Progress related to action steps has been monitored at designated intervals (e.g., monthly, quarterly) outlined in the African American Achievement Plan.
- Data reviews have been conducted to identify areas of strength and concern and disaggregated data will be provided upon request.
- Progress related to the elimination of the achievement gap has been monitored in an ongoing way and needed modifications have been made as identified.

### **Quarter 2 Reflection**

We have seen great improvement in our Reading, specifically with our African-American students. In fact, we currently have no African-American students at risk for retention in 3 rd Grade. We need to continue to monitor equity in extracurricular activities and discipline. We need to increase our interventions in mathematics.

### **Implementation Step**

Meetings will occur with each grade level to specifically analyze at data of Black and Hispanic students in the Lowest Quartile. Data will also be analyzed to increase the percentage of Black and Hispanic students that are scoring at or above grade level. Tier 2 and Intensive/Tier intervention groups will be added and adjusted by student deficit according to the recent data, altering the intervention and progress monitoring.
