*Applitrack utilizes the Department of Labor's non-single race/ethnicity methodology when identifying individual(s) race(s)/ethnicity(ies), which enables individuals to select all races/ethnicities with which they identify. All other indicators provided below utilize the Department of Education's single race/ethnicity methodology in alignment with Florida Department of Education reporting requirements. As a result, a higher percentage of individuals will be identified as African American using the non-single race/ethnicity methodology as compared with the single race/ethnicity methodology.
