

## 1.19 MONITORING STUDENTS IN COURSE RECOVERY

### Sebastian River Middle School Course Recovery

During the school year of 2019-2020, our guidance staff has been tracking students through the course recovery process. We have provided multiple opportunities for our students to complete ALS and Edgenuity, before school, during lunch, after school, and now at home during online learning. We continue to track, motivate, and guide students through this process to ensure that they are on track to matriculate with their peers and stay on course for graduation.
