

## ACE African American opportunities for credit recovery

1.19 Ensure African American students who have not met course requirements for graduation are participating in "in- school" credit recovery classes to recover failed core courses and raise grade point averages to meet graduation requirements.

- Conference with the student to determine supports outside of tier one interventions to determine critical needs.
- Send home letters to parents along with a phone call explaining support opportunities for students before, during, and afterschool
- Provide before and after school tutorial in area or areas of deficiency
- Assign students to our course recover program offered during school
- Contact student guidance counselor from their home school for guidance with upcoming high stakes testing and tutorial opportunities
