

Action Step 1.35

Evidence of Completion

Indian River Charter High School

Given the current shutdown, it is difficult to anticipate whether or not in-person orientations, open houses, and parent teacher conferences will be feasible for next school year. The school has created virtual versions of these events, which will be utilized if necessary. The school will continue the practice of having both parent and student orientations (virtually if need be) to ensure that families are familiar with the philosophy, policies, and procedures of the school. IRCHS will ensure that all families have equitable access to these events and provide physical copies of materials upon request.

IRCHS will continue the practice of referring all stakeholders to helpful resources via the school website and social media. IRCHS will continue to diligently advertise events at school. IRCHS will continue holding an 'SAT School Day' annually. On this day, any student who signs up can take the SAT during the school day at school. IRCHS will ensure that all students have equitable access to the 'SAT School Day'.
