

### **Action Step 1.36**

#### **Evidence of Completion**

##### **Indian River Charter High School**

The school has no discriminatory practices for recognizing students during recognition ceremonies. This year, the school created a virtual graduation ceremony, which was available on the homepage of the school website starting on May 16<sup>th</sup> at 10 AM. All students were recognized for their achievements at school and their future plans were outlined. Guidance counselors and administration worked with families to ensure that students received full recognition for all of their accomplishments.

The school also hosted a drive-through graduation ceremony where all seniors were congratulated for their efforts by their teachers. Seniors received yearbooks, caps, gowns, stoles, and medals. Faculty also performed live music and cheered the seniors on as they drove by. 148 of the 150 graduating seniors participated in the event.
