

What is Handshake?

Handshake is the official network to reach college 700 university career centers across the nation. Handshake lets universities and employers connect with a single click, leading to more diverse, high-quality networking opportunities for students and employers. The 700 university career centers, including many HBCU's, post their career fairs and communicate with employers through the portal. SDIRC books career fairs and makes payment for them through Handshake.
