1.6 – Extended Learning Opportunities

Data Chats & Plans for Targeted Support for Improved Learning

Ensure that African American students who are not kindergarten ready per the Florida Kindergarten Readiness Screener (FLKRS), or who show a substantial deficiency in reading in grades K-2 per i-Ready, targeted reading intervention as defined by the district reading plan.

Explanation of Evidence:

During this agenda, we reviewed data-based recommendations Brooke Flood, Principal of Early Learning, who forwarded a list of Pre-K students who were not “Kindergarten ready” and from Instructional Coaches who solicited K-2 teachers for additional students who were also identified. The after school tutoring coordinator (who is also one of the Literacy Coaches) made phone calls to recruit these students to the program. The grants covers students in grades K, 2, 3, 4, 5. Flyers/applications were sent home. Robocalls were sent via SchoolMessenger, and follow-up calls were made. Also, the registrar recruit new students who enrolled in our school.

Results of Action Taken:

As a result, 96 students (roughly ½ of the face-to-face students) participate in our after-school tutoring program. Sixty-one of the 96 students are African American students which reflects 64% of students participating in after school tutoring.

Reflection:

Although the grant did not extend opportunities to 1st graders, we are pleased about the 2 extensions that were made to cover 4th graders and 2nd graders. We will continue to seek strategic ways to address deficits in Grade 1 (e.g. the SDIRC’s A2 program encourages schools to seek funds to find creative ways during the day to Acclimate and Accelerate instruction students to “gain loss ground”, perhaps due to interruptions caused by COVID-19.
