

Evidence of Progress Monitoring
School District of Indian River County
#SDIRCStrongerTogether

Date:	9/14/2020
School/Department:	Alternative Center for Education
Action Step # and Description: (If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)	1.13_ACE_Data Chats for Improved Student Learning SPSS, All Schools_091420
Explanation of Evidence:	The leadership team was introduced to the Power IB data system and was provided the information that is representative to our African American student population. We were able to disaggregate the Early Warning Indicators (EWI) by race to identify each student's academic and behavioral needs. We will use an evidence-based data chat sheet to collect our monthly data, which is in the process of being created and implemented by Principal Brown.
Results of Action Taken:	The leadership team was very interactive about the data presented and understand the problem-solving steps that will be used to address the behavioral and academic needs of African- American students. After Principal Brown's presentation of the Power IB data system, he answered questions from the leadership team members that were relative to our data chats.
Reflection:	The leadership team understood that our data chats will occur on a monthly basis. The data will help to drive our decisions on our delivery of instruction and what barriers we will need to address to close achievement gap.

ACE Leadership Meeting

Thursday, September 3, 2020 at 2:30 PM

- **Chrome Notebook (Student/Parent Loan Agreement)**
