School/Department: Oslo Middle

**Action Step
(number and
description):** Action Step 1.13 - Data Chats for Improved Student Learning

**Evidence of Progress Monitoring
(Please include
narrative/description
of the action taken.
Where applicable,
please include all
measurable data.)** iReady PD specifically on use of iReady data reports to guide differentiation was provided to teachers in September with department-based follow up sessions scheduled in October. Most current data are included in weekly staff bulletin, data is shared and discussed with faculty during monthly faculty meetings, and personalized data chats are included in weekly collaborative planning sessions with a focused target on planning around subgroup data and intervention needs. Leadership meetings include targeted discussions and problem solving around current subgroup data for both academics and discipline.

**Results of Action
Taken:** As a result of continued focus on data, teachers are more aware of student data and have the tools and skills to pull appropriate reports for their students and plan interventions/enrichment accordingly. With a focus on differentiation, data analysis results in more data-driven differentiation which address the root deficits of specifically identified students in core classes, leading to increased student growth and proficiency.

Reflection: Oslo is committed to data-driven decisions in the 2019-20 school year. By conducting frequent data review sessions with leadership and faculty, we look forward to making progress toward our goals.
