School/Department: Strategic Planning & Support Services

**Action Step #
and Description:**
(If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)

1.13 - Provide support to teachers and administrators on the use of real-time data specific to African American students in order to have effective data chats and plan targeted support for improved learning.

Explanation of Evidence:

The attached documentation shows the agenda for Power BI training for school administration and site-based teams. Power BI is a tool that will help these teams progress monitor data. Samples of some the Power BI dashboards that are currently being used are also attached.

Results of Action Taken:

Administrative and leadership teams at school sites know how to access Power BI, use their platforms, monitor student progress, and analyze the data.

Reflection:

Administrative and leaderships teams were able to think about what other types of data needs would be helpful moving forward when future dashboards can be created.
