Date: 10/19/2020

School/Department: Wabasso School

Action Step #

and Description:

(If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)

1.15 Improving Mastery of Standards – Though our students do not currently take the Unit Assessments, we are still providing standards-based instruction in our FSA, FSAA and ULS guided classrooms.

Explanation of Evidence:

A Professional development took place on the early release day, September 23 that trained our teachers and teacher assistants on the appropriate usage and intent of standards-based instruction. This also aligns with our school improvement plan.

Results of Action Taken:

To purposefully access standards-based instruction so that our students maintain as close to “Typical” progress as possible while closing personal gaps in learning.

Reflection:

Beginning the cycle by requiring a PD and then monitoring of implementation and then assessing the results of the monitoring to determine effectiveness and next steps.
