

African American Achievement Plan Evidence of Progress Monitoring

School District of Indian River County #SDIRCStrongerTogether

Date:	9/21/2020
School/Department:	Sebastian River High
Action Step (number and description):	1.16-Florida Early Warning Indicators
Evidence of Progress Monitoring (Please include narrative/description of the action taken. Where applicable, please include all measurable data.)	The documentation that is attached will show the actions plans that were developed from the graduation team which consists of Administration, Graduation Coach, Student Success Coach, and Guidance Counselors. From our monthly graduation team meetings, we have identified 5 African American 12 grade students have multiple Early Warning System indicators who are not on track to graduate. From that meeting we have collaboratively put an action plan in place for each student individually and will monitored monthly by admin, graduation coach, and guidance counselor with the student.
Results of Action Taken:	Graduation Coach and Guidance Counselor will formally meet with identified students and parents to explain action plan and its implementation to ensure student achievement.
Reflection:	We will continue to ensure equitable access is achieved by all students by providing after school opportunities for improvement and recover course failures.

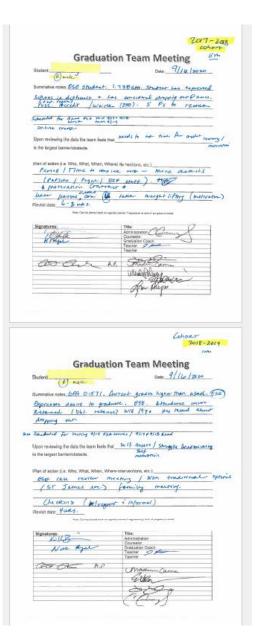

SRHS Student Early Warning System Identification of Students with multiple indicators and resultant Action Plans
