

Evidence of Progress Monitoring
School District of Indian River County
#SDIRCStrongerTogether

Date: 11/18/2020

School/Department: Gifford Middle

Action Step # and Description: 1.33 Developing a Summer Program for Advance Courses
(If more than one action step is evidenced here, please include all action step #'s and a brief description of each.)

Explanation of Evidence: We will use the data from 20-21 school year to strategically target our rising 6th and 7th grade students who are on grade level or on the verge of proficiency to have them participate in our 2021 summer programs.

Results of Action Taken: As the results of the data we will use small group instruction and support facilitators and strategically target instruction in areas where the students are academically deficient.

Reflection: We did have success with the 2020 summer advance course program for various responses. We will plan to advertise and involve families earlier in the process so they are aware of the expectations and how the summer program will impact their students' academic success. No additional information is available currently.
