Results of Action Taken: Students have opportunity to work with their peers to problem solve and build relationships. We also plan to have the students included in the extended learning opportunities(Mentor and Mentee) to support the academic needs of both students.

Reflection: Peer mentorship will build leadership and support for our students. Students will have a responsibility to advocate for themselves and others. Building a sense of community within our school. In the next few weeks upon the return of more students, the Peer Mentorship program will grow to include more students.
