(Please include

measurable data.)** Met with the school counselor to review ISS program and possible need for such program. At this time we have not had to use any ISS however had used brief time away for a small number of students in our EBD unit to cool down and reflect on behavior. Duration varies however in no scenario has it been more than 45minutes.

**Results of Action
Taken:** Drastic reduction in the number of ODR's at this point in time compared to last year.

Reflection: The meeting resulted in the action plan of continuing to monitor.
