

School District of Indian River County African American Achievement Plan 2020 -2021 Assurances of Implementation of Action Steps

In August 2020, the School District of Indian River County initiated the implementation of the 2020-2021 African American Achievement Plan. To review and ensure compliance with progress of action steps associated with the African American Achievement Plan, the District provides quarterly updates related to action steps accomplished and quarterly outcomes. Following the first quarter of implementation of the African American Achievement Plan, it became clear that increased time and effort should be invested in action step implementation in comparison with compliance activities. As such, the system associated with submitting evidence of the implementation of action steps was analyzed and revised to maximize the allocation of human capital and resources towards supporting students and staff in eliminating the achievement gap.

The attached documentation provides school level evidence of progress towards accomplishing action steps incorporated into the African American Achievement Plan. Documentation requirements have been designed to honor the full intent of the developed African American Achievement Plan while optimizing the efficiency and effectiveness of outlined actionable steps.

To support ongoing accountability of action step implementation, documentation, and progress the following assurances have been verified by the principal of each school:

- Action steps included within the 2020-2021 African American Achievement Plan have been implemented with consistency and purpose to eliminate the achievement gap.
- Progress related to action steps has been monitored at designated intervals (e.g., monthly, quarterly) outlined in the African American Achievement Plan.
- Data reviews have been conducted to identify areas of strength and concern and disaggregated data will be provided upon request.
- Progress related to the elimination of the achievement gap has been monitored in an ongoing way and needed modifications have been made as identified.

These assurances have been reviewed and verified on: 3/18/2021 _____LM_____ (initials)

Quarterly Reflection

(Please summarize any reflections based upon action step implementation for the quarter. What are areas of progress or opportunities for growth? What are next steps based upon work accomplished?)

- Collaborative planning with coaches or admin weekly. We use the 3-5 Grades Unit Assessment Data, ORFs, DIBELS, progress monitoring etc. to create Lesson Plans that all teachers are accountable to uphold and follow, with questions for accountable talk
- Differentiated groups occurring daily and switched as needed-pushing rigor as needed for those who are ready
- Tier 2 groups were restructured in January. Tier 3 groups also occur daily based on threshold numbers given by district at beginning of the school year. The week of March 22-26, we will again look at our Tiered data to see where students need more targeted support.
- We will also continue with our A2 interventions (Kahn Academy math 5th BQ and Legends of Learning bubble 5th grade) , Moonshot Storytime and Tutoring, Audobon, and "Dream Chasers Academy" will continue through April 30th.
- **SIP GOAL #1** Provide appropriate and evidenced-based scaffolds and supports for SWD in Tier 1 instruction to make rigorous standards-based instruction accessible to all learners. Although VBE's other subgroups doubled ELA from 2018 to 2019, our students with disabilities scoring proficiency increased only 4 percentage points which fell below the school growth average, math proficiency for the SWD subgroup was comparable to the overall school growth average, 17% of our SWD subgroup were proficient in science which was 26 percentage points below the proficiency of the total 5th grade. Our SWD subgroup fell below the 41% ESSA threshold. (Staff participated in differentiation training with instructional coaches 2 times this school year. Current Data from Lesson Plan collection reflections: differentiation was evident in 100% of daily lessons and/or formative assessments.
- **SIP GOAL #2** VBE has identified student behavior as an area of focus. Total of 92 Office Discipline referrals in the 19-20 school year (40 were bus referrals). When desegregating the data, 59% of those referrals were for Black students, 35.8% were for White students, and 4% were for Hispanic students. Overall, 25% of students receiving ODRs were SWD. Due to this data and discrepancies between racial groups, VBE will focus on

empowering teachers and students through culturally responsive (diverse) teaching and learning practices coupled with implicit bias professional growth opportunities. To date, we have 27 office discipline referrals – a decrease from the prior year. 70% (down from 91%) of the referrals have been for students with disabilities. In terms of racial / ethnic subgroup, 51% of students are black, 33% are white, 4% are Hispanic, and 11% are multiracial / other. Six students have multiple referrals. To date, we have met our 1st, 2nd, and 3rd quarter goals as established on our SIP: 12 or less ODRs per quarter. However, we are still working to further reduce our Black student referrals to 28% of overall referrals.

- **SIP GOAL #3** Vero Beach Elementary is a Project Based Learning School. Research shows that students participating in the Buck Institute Gold Model outperformed their peers in reading growth and proficiency. In our VBE cohort, students who were in an identified PBL cohort were three times more likely to be proficient in reading than peers in a traditional instructional model (Gil, 2019). Data from this same school report, showed all students in a PBL settings outperformed their peers on I-Ready diagnostic assessments. The subgroup that outperformed all others on this same measure, was Black/African American (by 66 scale points). PBL Training + Planning on Jan. 4th.

- Each grade level has one project planned for 3rd nine weeks. Project outlines are posted in grade level hallways.

- **Bottom Quartile Students:** ELA- 59% of our students in the BQ are predicted to make a learning gain based on all data indicators. MATH- 55% of BQ students are slated to make a learning gain based on all data indicators. Dream Chasers Academy, math A2 interventions, and small groups with instructional coaches will continue through April 30th.
- **Next steps:**
 1. Continue to monitor student data for regressions and progressions in weekly planning meetings along with Data Chats.
 2. Continue professional learning on multiple response strategies that engage all learners.
 3. Continue to monitor equitable access to extended learning opportunities.
 4. Try to get back 100% of our BQ students.
 5. Continue to monitor referrals to ensure equitable practices are in place at Tier 1.
 6. Continue to monitor that teacher are providing equitable opportunities for all students to engage in learning.

Action Step 1.11

Date of Student Committee Meeting	2/2/21
Summary of student feedback related to diversify opportunities to participate in extracurricular activities	The Superintendent’s Student Advisory Council met on February 2, 2021 in the Joe Idlette, Jr. Teacher Education Center at the District Office. The Advisory Council is comprised of diverse student representatives from all secondary schools in the District. This session of the Superintendent’s Student Advisory Council focused on equitable access to extracurricular activities. A total of 17 students participated. Students identified barriers and possible solutions to equitable access to extracurricular activities. Some examples of barriers identified included cost, transportation, time, lack of experience with the extracurricular activity, and awareness. The student feedback was shared with Mr. Eric Seymour, Director of Advocacy, Athletics, & Student Activities. Presently, Mr. Seymour is working in collaboration with the Office of Communications to increase awareness of extracurricular opportunities for students.
