

School District of Indian River County African American Achievement Plan 2020 -2021 Assurances of Implementation of Action Steps

In August 2020, the School District of Indian River County initiated the implementation of the 2020-2021 African American Achievement Plan. To review and ensure compliance with progress of action steps associated with the African American Achievement Plan, the District provides quarterly updates related to action steps accomplished and quarterly outcomes. Following the first quarter of implementation of the African American Achievement Plan, it became clear that increased time and effort should be invested in action step implementation in comparison with compliance activities. As such, the system associated with submitting evidence of the implementation of action steps was analyzed and revised to maximize the allocation of human capital and resources towards supporting students and staff in eliminating the achievement gap.

The attached documentation provides school level evidence of progress towards accomplishing action steps incorporated into the African American Achievement Plan. Documentation requirements have been designed to honor the full intent of the developed African American Achievement Plan while optimizing the efficiency and effectiveness of outlined actionable steps.

To support ongoing accountability of action step implementation, documentation, and progress the following assurances have been verified by the principal of each school:

- Action steps included within the 2020-2021 African American Achievement Plan have been implemented with consistency and purpose to eliminate the achievement gap.
- Progress related to action steps has been monitored at designated intervals (e.g., monthly, quarterly) outlined in the African American Achievement Plan.
- Data reviews have been conducted to identify areas of strength and concern and disaggregated data will be provided upon request.
- Progress related to the elimination of the achievement gap has been monitored in an ongoing way and needed modifications have been made as identified.

These assurances have been reviewed and verified on: 5/25/2021 LM (initial	These assurances have	been reviewed and	l verified on: 5/25	5/2021	LM (in	nitials

Quarterly Reflection

(Please summarize any reflections based upon action step implementation for the quarter. What are areas of progress or opportunities for growth? What are next steps based upon work accomplished?)

- Collaborative planning with coaches or admin weekly. We use the 3-5 Grades Unit Assessment Data, ORFs, DIBELS, progress
 monitoring etc.to create Lesson Plans that all teachers are accountable to uphold and follow, with questions for accountable
 talk
- Differentiated groups occurring daily and switched as needed-pushing rigor as needed for those who are ready
- Tier 2 groups and daily instruction was restructured the week of April 6, 2021, based upon I-Ready diagnostic data in grades 4th and 5th. Tier 3 groups also occur daily based on threshold numbers given by district at beginning of the school year.
- We will also continue with our A2 interventions (Kahn Academy math 5th BQ and Legends of Learning bubble 5th grade) Moonshot Storytime and Tutoring, Audobon, and "Dream Chasers Academy" will continue through April 30th.
- SIP GOAL #1 Provide appropriate and evidenced-based scaffolds and supports for SWD in Tier 1 instruction to make rigorous standards-based instruction accessible to all learners. Although VBE's other subgroups doubled ELA from 2018 to 2019, our students with disabilities scoring proficiency increased only 4 percentage points which fell below the school growth average, math proficiency for the SWD subgroup was comparable to the overall school growth average, 17% of our SWD subgroup were proficient in science which was 26 percentage points below the proficiency of the total 5th grade. Our SWD subgroup fell below the 41% ESSA threshold. (Staff participated in differentiation training with instructional coaches 2 times this school year. When looking at our I-Ready Spring diagnostic scores, our SWD improved their overall I-Ready SS from 451 to 496 in ELA and 412 to 433 SS in math. In regards to our Unit Assessment averages in 3rd-5th, our ELA avg for SWD was 57 and the district had a 57 average. VBE's science assessment average was 67 and the district's average was 68. VBE's math average for SWDs was 68 and the district average was 64. Teachers who service SWD students on their case load worked collaboratively with classroom teachers and supported during planning periods when possible. The effectiveness of our support facilitation model, when appropriate, proved to be a successful opportunity for our students.
- <u>SIP GOAL #2</u> VBE has identified student behavior as an area of focus. Total of 92 Office Discipline referrals in the 19-20 school year (40 were bus referrals). When desegregating the data, 59% of those referrals were for

Black students, 35.8% were for White students, and 4% were for Hispanic students. Overall, 25% of students receiving ODRs were SWD. Due to this data and discrepancies between racial groups, VBE will focus on empowering teachers and students through culturally responsive (diverse) teaching and learning practices coupled with implicit bias professional growth opportunities. To date, we have 65 office discipline referrals – a decrease from the prior year. 60% (down from 91%) of the referrals have been for students with disabilities. In terms of racial / ethnic subgroup, 54% of students are black, 37% are white, 5% are Hispanic, and 2% are multiracial / other. 14 students have multiple referrals. To date, we have met our 1st, 2nd, and 3rd quarter goals as established on our SIP: 17 or less ODRs per quarter. However, we are still working to further reduce our Black student referrals to 28% of overall referrals.

• <u>SIP GOAL #3</u> Vero Beach Elementary is a Project Based Learning School. Research shows that students participating in the Buck Institute Gold Model outperformed their peers in reading growth and proficiency. In our VBE cohort, students who were in an identified PBL cohort were three times more likely to be proficient in reading than peers in a traditional instructional model (Gil, 2019). Data from this same school report, showed all students in a PBL settings outperformed their peers on I-Ready diagnostic assessments. The subgroup that outperformed all others on this same measure, was Black/African American (by 66 scale points).

Enrichment Experience	Grade Level(s)	African American	White	Multi-Racial	Hispanic	Other	RESOURCES USED:

RTI Enrichment	5	31% 10/32	38% 12/32	3% 1/32	28% 9/32		Project Based Learning from the Buck Institute Model

• <u>SIP GOAL #4</u> Improving structures and routines to facilitate active student response to engage all learners in rigorous, standards-based instruction. Active student response such as multiple response strategies and accountable talk engage all learners in the thinking and questioning facilitated by the teacher. (Impact Review Data provide below)

	 Tier 3 time: Wh 	at accountability is there for	students?				

• <u>Bottom Quartile Students</u>: ELA- 64% (up from 59%) of our students in the BQ are predicted to make a learning gain based on all data indicators. MATH- 50% (down from 55%) of BQ students are slated to make a learning gain based on all data indicators. Dream Chasers Academy, math A2 interventions, and small groups with instructional coaches will continue through April 30th.

Next steps:

- 1. Evaluate end of year student data to determine the effectiveness of the school improvement plan goals and action taken.
- 2. Create 21-22 SY School Goals based on performance outcomes from the current school year.
- 3. Develop a professional learning calendar based on progression toward SIP goals and improving student outcomes.

Continue to monitor that teacher are providing equitable opportunities for all students to engage in learning.

Action Step 1.11

Date of Student Committee Meeting	04/06/21
Summary of student feedback related to diversify opportunities to participate in extracurricular activities	A culminating meeting of the Superintendent's Student Advisory Council was held in April 2021 to share with students how the feedback that they had provided throughout the year on various topics (e.g., college planning, equitable access to activities) had been used or is planned on being used to make improvements in the school experiences of students. The Superintendent's Cabinet members were present at the session not only to share the work of their individual offices in this regard, but also to respond to questions students had. Also during this session, students participating on this year's council were recognized for their contributions to this body of work.
