

School District of Indian River County
African American Achievement Plan 2021 -2022
Assurances of Implementation of Strategies/Action Steps

Quarter of the School Year: 4

District Office: Strategic Planning & Support Services

In August 2021, the School District of Indian River County initiated the implementation of the 2021-2022 African American Achievement Plan. To review and ensure compliance with progress of action steps associated with the African American Achievement Plan, the District provides quarterly updates related to action steps accomplished and quarterly outcomes.

The attached documentation provides school level evidence of progress towards accomplishing action steps incorporated into the 2021-2022 African American Achievement Plan. Documentation requirements have been designed to honor the full intent of the developed African American Achievement Plan while optimizing the efficiency and effectiveness of outlined actionable steps.

To support ongoing accountability of action step implementation, documentation, and progress the following assurances have been verified by the principal of each school:

- Action steps included within the 2021-2022 African American Achievement Plan have been implemented with consistency and purpose to eliminate the achievement gap.
- Progress related to action steps has been monitored at designated intervals (e.g., monthly, quarterly) outlined in the African American Achievement Plan.
- Data reviews have been conducted to identify areas of strength and concern and disaggregated data will be provided upon request.
- Progress related to the elimination of the achievement gap has been monitored in an ongoing way and needed modifications have been made as identified.

These assurances have been reviewed and verified on: 5/27/2022 _PL__HH__BM_____ (initials)

Quarterly Reflection

(Please summarize any reflections based upon action step implementation for the quarter. What are areas of progress or opportunities for growth? What are next steps based upon work accomplished?)

The AIM program continues to serve as a progress monitoring intervention to ensure the success of students. Students who showed progress, 90% average daily attendance, grades C or above were dismissed from AIM. Next steps for this program is to continue as a monitoring and supportive intervention to ensure the success of student. Students who are disengaged with their education provide the opportunity to confront any barriers that interfere with their ability to be academically successful.

The student enrollment evaluation of student populations prior to running each lottery is helping to increase the number of minorities at most schools throughout the county. However, the choice application process is not significantly impacting the needed changes in population at Dodgertown, Fellsmere, or Gifford Middle School. It is the recommendation of the Enrollment Office that the zoning for all north county schools be evaluated to remedy these outliers.

Data-based problem solving is at the heart of effective and efficient problem solving. The district problem solving teams continue to base decision-making on reviews of data. These meetings center district leaders on the reality of our students and deploy resources as needed. Additionally, communication between staff members responsible for direct support and staff members responsible for policy is enhanced through these meetings. Moving into 22-23, the Department of Accountability and Research will continue hosting these problem solving meetings.

Quarterly Summary of Implementation of Strategies/Action Steps

Quarter of the School Year: 4

Date of Summary: 5/27/2022

District Office: Strategic Planning & Support Services

Strategies: 1.3, 2.1, 2.2, 5.2, 5.4

Strategy AAAP 1.3: Use Florida Early Warning Indicators to support secondary School Leadership Teams in developing and implementing interventions for African American students who are not on-track to graduate.

| | |
|--|---|
| Dates of Support Provided to School Leadership Teams/Updates to the Early Warning System Dashboard | A&R Monthly EWS Problem Solving Meetings: 4/7 |
|--|---|

*Attach examples of the Early Warning System Dashboard

Strategy AAAP 2.1: Implement data-driven problem solving and provide needs-based supports to schools to specifically address identified discipline and achievement disparities.

| | |
|---|--|
| Dates of Support Provided for Problem Solving for Discipline and/or Achievement Disparities | Alternative Intervention Measures (AIM): 4/1, 4/7, 4/14, 4/21, 4/22 A&R Monthly Discipline Problem Solving Meetings: 3/29, 4/26 A&R Monthly Attendance Problem Solving Meetings: 3/29, 4/26 |
| Summary of Planned Action Steps | Students who showed progress, 90% average daily attendance, grades C or above were dismissed from AIMS. Each AIMS student that was in attendance for the school day was met with and a summary of progress was made with the students. |

Strategy AAAP 2.2: Implement alternative discipline interventions and supports for African American students identified as off-track according to disciplinary Early Warning Indicators.

| | |
|--|---|
| Dates of Professional Development Provided for Alternative Discipline Interventions & Supports | 3/21/22 – 5/27/22: Site Specific Support 4/20/22, 5/10/22, 5/11/22 |
|--|---|

* See Attached log.

Strategy AAAP 5.2: Evaluate the impact that school choice, including magnet enrollment, is having on the representation of African American students at specific schools, with a particular focus on schools that are racially identifiable.

| | |
|----------------------------|--|
| Dates of Evaluation | 4/4/2022 and 5/11/2022 |
| Summary of Results | Each school is evaluated before the lottery runs for the SY 22-23 choice placements. Based on the data for school enrollment Dodgertown Elementary and Gifford Middle School were over the percentage for African American Students set by the 2018 Joint Plan and Fellsmere Elementary was under the percentage. Sebastian Elementary is right on the edge, but no longer over now that the district percentage is at 19%. Therefore, African American Students at all but the two schools that are over the percent range were given priority in the choice lottery. This will help maintain the majority of schools within the acceptable range while limiting any increase at the two schools that are currently over the percentage. These data points will continue to be evaluated as we hold further choice lotteries to prepare for the 22 -23 school year. The final lottery for the 22 -23 school year will be run in June. |

Strategy AAAP 5.4: Continue to provide evidence of implementation of the AAAP and progress monitoring, including a 5-year progress monitoring framework, on the District’s public-facing website.

To these ends, the ACHIEVE 2025 District Strategic Plan was developed to guide our district through needed transformations to realize unprecedented levels of student achievement. Through this plan, the district has clearly established and outlined (among other areas) Focus Areas for Academic Success and Equity, Culture, and Climate seeking to "ensure high-quality, equitable standards-based instruction for all students." Included within these Focus Areas are both Annual Targets and Strategies to accomplish those targets. | <p>Dashboard Information</p> <p>Over the past twenty years, research has consistently demonstrated that students at risk of dropping out show signs of disengagement earlier in their academic career, and as early as first grade. These "Early Warning Indicators" typically center around data in the areas of attendance, behavior, and course performance. The intent is to highlight for school leaders the students who are disengaging from the educational process so that they might target interventions more effectively to the individual student needs. Starting with the 2014-15 school year, the State of Florida requires schools to monitor students identified through an EWS utilizing four indicators in attendance, discipline, and course performance. The data included in this dashboard shows the percentage and counts of students flagged by each of the four EWI.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
