

African American Achievement Plan 2022-2023 Assurances of Implementation of Strategies/Action Steps

Quarter of the School Year: 2

School: Treasure Coast Elementary

In September 2022, the School District of Indian River County initiated the implementation of the 2022-2023 African American Achievement Plan. To review and ensure compliance with progress of action steps associated with the African American Achievement Plan, the District provides quarterly updates related to action steps accomplished and quarterly outcomes.

The attached documentation provides school level evidence of progress towards accomplishing action steps incorporated into the 2022-2023 African American Achievement Plan. Documentation requirements have been designed to honor the full intent of the developed African American Achievement Plan while optimizing the efficiency and effectiveness of outlined actionable steps.

To support ongoing accountability of action step implementation, documentation, and progress the following assurances have been verified by the principal/supervisor of each school/location:

- Action steps included within the 2022-2023 African American Achievement Plan have been implemented with consistency and purpose to eliminate the achievement gap.
- Progress related to action steps has been monitored at designated intervals (e.g., monthly, quarterly) outlined in the African American Achievement Plan.
- Data reviews have been conducted to identify areas of strength and concern and disaggregated data will be provided upon request.
- Progress related to the elimination of the achievement gap has been monitored in an ongoing way and needed modifications have been made as identified.

These assurances have been reviewed and verified on January 5, 2023: _____SS_____ (initials)

Quarterly Reflection

(Please summarize any reflections based upon action step implementation for the quarter. What are areas of progress or opportunities for growth? What are next steps based upon work accomplished?)

We have made great strides in equity in discipline, academics, and extracurricular activities. Discipline percentages reflect student population. The ELA achievement gap for Black v. White students, as forecasted for the FAST Spring assessment, is within 6 percentage points. We have a higher percentage of black students participating in extracurricular activities than any other ethnicity. Our primary area of need is to hire Black teachers and we have reached out to district level assistance for the Spring hiring process.

Math FAST Forecast Based upon PM1 & PM2

White: 62%
Black: 43%
Hispanic: 50%
Other: 67%

In ELA, current FAST Forecast reveals the achievement gap between white students and other subgroups to be within 6 or 7 percentage points for Black and Hispanic students, and 13 percentage points for Other students (Asian, Multiracial).

In Math, current FAST Forecast reveals the achievement gap between white students and other subgroups to be 19 percentage points for Black students, 12 percentage points for Hispanic students, and 5 percentage points over for Other students (Asian, Multiracial).

Based upon this data, we have closed the achievement gap significantly in ELA. The achievement gap in Math, however, is still significant. A majority of our intensive, extra interventions focus on Reading at the elementary level. In the Spring, we want to close this gap in Math.

Strategy AAAP 2.2 (SECONDARY ONLY): Implement alternative discipline interventions and supports for African American students identified as off-track according to disciplinary Early Warning Indicators.

*Academic Goal from SIP:

<p>The achievement gap for Black and Hispanic students (3rd-5th Grade) was 22% and 23% on the FSA in 2021-2022.
